

ALLAN G. TECSON

Sta. Rosa City, Laguna, Philippines • allantcsn@gmail.com • 0927-50-6208

UI/UX designer who specializes in creating user interfaces, for web and mobile applications. I believe in collaborating with teams, including developers, product managers and stakeholders to understand project requirements and design interfaces that meet both user needs and business objectives.

Professional Experience

Graphic Designer

ADEC INNOVATIONS, Philippines

September 2015–Present

- Collaborate with cross-functional teams to understand project requirements and design user-friendly interfaces that meet user needs and business objectives.
- Use design tools such as Adobe XD, and Figma to create high-quality, visually appealing interfaces for web and mobile applications.
- Stay up-to-date with industry trends and best practices for user experience and interface design, and incorporate them into your work.
- Communicate effectively with team members, stakeholders, and other stakeholders to ensure that designs are implemented correctly and meet project goals.
- Manage multiple projects concurrently, meeting deadlines and staying within budget constraints.
- Creating wireframes and prototypes for clients, product managers and developers to have a grasp of the ideas needed for the projects.
- Provided assistance to front-end developers in identifying and resolving some bugs during the development process.
- I oversaw certain CMS by fulfilling requests from the project owner to add content and/or images.
- 3+ years experience with UI/UX design, 4+years Graphic Designer, 2+ years Frontend Dev.

Graphic Designer

HEROES OF DIGITAL, Singapore

March 2018–December 2020

- Develop wireframes, prototypes, and visual designs for user interfaces
- Collaborate with development team to ensure design is functional and intuitive
- Conduct user research and testing to gather feedback and improve design
- Stay up-to-date with design trends and best practices
- Create design assets such as icons, images, and graphics for use in user interfaces
- Present design concepts and solutions to stakeholders and team members
